

Quick Summary of Our Policies

- You own your data. Everything you give us (transactions, records, financial info) stays yours. We just process it for you.
- Our services. We help with system setup, inventory, production, financials, bookkeeping, and accounting closings.
- Platform responsibility. We use the Ecount ERP system, but Ecount is responsible for the platform itself, including hosting, backups, and data security.
- Payments & refunds. You pay for our time and services. Once work is done, there are no refunds. If something goes wrong, we may offer free support as goodwill.
- Privacy. We don't sell or misuse your information. We only use it to deliver services and manage billing. Ecount handles storage and security on their side.
- Cookies. Our website may use cookies to improve performance and track usage.
- Legal stuff. We limit our liability, and Ontario law applies if there's ever a dispute.
